

*Green energy for life*

**RADIANT SOLAR**

## About Us

Radiant Solar (approved channel partner of Ministry of New and Renewable Energy) is a Hyderabad based solar power solution company for residential, commercial and industrial applications. The manufacturing facility is strategically located at FAB city SEZ in Hyderabad. We are passionately committed to promoting green energy to combat global warming and to support a clean and sustainable future for our children.

Radiant Solar is backed by its Technical Collaborator/Group Company, Regen Power Pty Limited, Australia and Strategic Partner, Leonics Company Limited, Thailand, in their technology development and quality control. Radiant Solar has uniquely positioned itself in the Renewable energy market with the intention to respond to the growing demand for energy efficient solutions for business, residential and industrial sectors.

### Radiant Solar offers Solar Power Plants

1. Grid Connected Solar Power Plant (without battery storage and with provision to sell power to the Grid)
2. Grid Interactive Solar Power Plant (with battery and with provision to sell power to the Grid)
3. Off Grid Solar Power Plant (with battery storage but no provision to sell power to the Grid)

### Photographs of some of the bigger solar power plants by Radiant Solar

Grid Connected and Grid Interactive solar power plants are shown below

#### 100 KW Solar Power Plant

Pushpagiri Institute of Medical Science and Research Centre, Tiruvalla

#### 100 KW Solar Power Plant

Mar Baselios College of Engineering and Technology, Trivandrum

#### 80 KW Solar Power Plant

MES College of Engineering, Kuttipuram

#### 63 KW Solar Power Plant

Jyothi Engineering College, Thrissur

#### 30 KW Solar Power Plant

Mar Athanasios College for Advanced Studies Tiruvalla (MACFAST), Tiruvalla

#### 30 KW Solar Power Plant

Sri Parijatha Hotels, Bangalore

Radiant Solar were commissioned to install solar panels that generate a substantial proportion of the college's electricity needs - the first such installation in the education sector in Kerala. From concept to power generation, the project was accomplished to the highest standards of quality and efficiency. Their handling of the regulatory authorities was also impressive.

Grid Interactive and Off Grid solar power plants are shown below

\* Hundreds of Installations including Govt. of Kerala(ANERT) 10000 Home projects.

Since 18th December 2012, I have installed a 3.5 KW solar generator in house along with KSEB, till today I have saved 85% on my bills. I am literally using everything (everything) on random basis. Straight from factory, no middle man or agents involved. Go Green and save current cuts.

- Jacob Edavaparambil, Tiruvalla

I don't feel any power cuts anymore. My electricity and DG bills don't pinch me any longer.

- Dilip Rane, Hyderabad
